I am very good at repairing and figuring out how to repair many things around the house. I can do just about anything that does not require heavy labor or specialty tools of my own. I have many tools of my own, and I strive always to do a professional job. If a job requires specialty tools, they can be rented possibly. I am more than willing to do small jobs that you might feel silly about calling someone for. I enjoy serving. I have references. I charge \$10-12 per hour or by the job depending on what is involved and what you may be able to afford.
